Contents of Volume 7 1989

Number 1 1989

Newsline 1

Calendar 3

Editor's Profile 5

D.K. Benedict
The Computer Integrated Manufacturing (CIM) of Net Shape Forged Bevel Gears 7

H. Riegger
Shape Catalogues in Steel Profile Production 13

D.H. Hashiguchi, T.P. Clement, and J.M. Marder
Properties of Beryllium Consolidated by Several Near-Net Shape Processes 23

R. Duggirala
Design of Forging Dies for Forming Flashless Ring Gear Blanks Using Finite Element Methods 33

J.L. Frater
Application of Finite Element Methods to the Design of Prestressed Tooling 49

J.L. Frater and B.R. Penza
Predicting Fracture in Cold Upset Forging by Finite Element Methods 57

Instructions to Authors on page vi

Number 2 1989

Newsline 63

Calendar 65

J.L. Frater and R. Zinolabedini
Stress Analysis of Dies Having Multiple Shrink Rings 67

L. Murugesh, J. Ravi, S.T. Mahmood, and K.L. Murty
Contractile Strain Ratios of Textured cp-Titanium (Grade II) Sheet 81

E. Chu
A Critical Review of the Current End-Coining Practices for Container End Closures 91

T.G. Grady
High Density Powder Metallurgy Design Concepts for Powder Forging 105

J. Zasadzinski, J. Richert, and W. Misiolek
Physical Modeling Pertaining to Extrusion of Asymmetric Shapes 113

M. Pietrzyk and J.G. Lenard
A Study of Thermal-Mechanical Modeling of Hot Flat Rolling 117

Instructions to Authors on page vi

Number 3 1989

Newsline 127
Calendar 130

G.L. Horvat and S.C. Surface
Assembled Camshafts for Automotive Engines 133

K.N. Shah and J.M. Story
SPF Model Applications for Aluminum 137

N.D. Walker, Jr.
Automated Upper Bound Procedures for Plane Strain Metal Forming Analysis 145

H.Y. Lee and R.S. Rao
A Finite Element Solution of Steckel Rolling Using Measured Velocity Boundary Conditions 155

G. Sathyanarayanan, G.E. Kane, R. Sowerby, and N. Chandrasekaran
A Search for a Short Term Test to Assess the Machinability of Stainless Steels 161

M. Karima, N. Chandrasekaran, and W. Tse
Process Signatures in Metal Stamping: Basic Concepts 169

Instructions to Authors on page iv

Indexed in *Metals Abstracts, Engineered Materials Abstracts,* and *World Aluminum Abstracts*

Number 4 1989

Newsline 185
Calendar 189

P. Tibbits and S. Keyi
Rapid Consolidation of $YBa_2Cu_3O_7$ Powder 193

M.M. Dehghani, A. Ahmad, R.L. Capelletti, and S. Mahajan
Coextrusion of Superconducting Wires 199

M.F. Shi and J.C. Gerdeen
A Theoretical Study of the Ironing Process in Sheet Metal Forming 203

M. Karima
On the Micro and Macro Perspectives of Stamping Engineering 213

K. Chung
Finite Element Simulation of PET Stretch/Blow-Molding Process 229

Index to Volume 7 241

Instructions to Authors on page iv

Indexed in *Metals Abstracts, Engineered Materials Abstracts,* and *World Aluminum Abstracts*
